01.

## PROFILE

Seeking a problem solving & rewarding opportunity in the area of Mobile application development in your organization to utilize my true potential while nurturing my personal and professional skills.

02.

## EXPERIENCE

2022.02 - 2023.05

### Novaturient Technologies (NTPL)

Android developer

At Novaturient Technologies, I was responsible for developing a number of mobile apps, including e-commerce, survey & analytics, farm management, team management, CRM, etc.

I have a proven track record of delivering high-quality apps on time. I am also a highly motivated and self-directed individual, and I am always eager to learn new things.

Even though I was hired as an Android developer, I got the opportunity to work on a Flutter project which I grabbed. I have also worked on Node.js, Express.js & MongoDB for RestFul API development for a brief period there.

2021.01 - 2022

### Freelancer (Upwork) & Collaborations

Mobile app & Web development

- Design and build applications for Android platform
- Modify & update websites as per client needs
- Collaborate with clients and providing optimal solutions
- Work on bug fixing and improving application.

2019.04 - 2022

### Technical Content Writer

LinuxH2O

- Writing articles about programming & Linux operating system
- Publishing video guides relating to Linux
- Troubleshooting & fixing audience issues

03.
